

Reproductive & Perinatal Biology Seminar
Sponsored by
The D. H. Barron Reproductive & Perinatal Biology Research Program
and the Perinatal Outcome Research Center (RPBO Seminar Series)
Spring 2015 Wednesday 4:00-5:00 PM
D. H. Barron Conference Room Medical Sciences Building M-304

- January 28: **Charles Wood, PhD**
Does Triclosan Attack Fetal Metabolism?
Professor and Chair, Department of Physiology & Functional Genomics, University of Florida College of Medicine
- February 4: **Xiaohui Xu, MD PhD**
Environmental pollution and adverse pregnancy outcomes
Assistant Professor of Epidemiology, Colleges of Public Health and Health Professions and Medicine
- February 11: **Sergei Tevosian, PhD**
GATA Transcription Factors control Steroidogenic Cell Development in Mice
Associate Professor, Department of Physiological Sciences, University of Florida College of Veterinary Medicine
- February 18: **Patrick Catalano, MD**
Effect of maternal obesity on fetal growth and metabolic health
Director, Center for Reproductive Health at MetroHealth; Director, Clinical Research Unit of the Case Western Reserve University CTSC @ MetroHealth; Professor, Reproductive Biology, MetroHealth Medical Center/Case Western Reserve University, Cleveland, OH
- February 25: **Fuller W. Bazer, PhD (Barron Lecturer)**
The Many Faces of Interferon Tau
Regents Fellow, Distinguished Professor and O. D. Butler Chairholder, Physiology of Reproduction, Department of Animal Science, Texas A&M University, College Station
- March 4: Spring Break: No Meeting
- March 11: **Leticia Reyes, DVM, PhD**
Porphyromonas gingivalis strain specific effects on the deep placental bed
Research Assistant Professor, Department of Infectious Disease & Pathology, University of Florida College of Veterinary Medicine
- March 18: **Alice Rhoton-Vlasak, MD**
Obesity and Its Impact on Reproductive Function and Health
Associate Professor, Division of Reproductive Endocrinology and Infertility, Department of Obstetrics and Gynecology, University of Florida College of Medicine
- March 25: SGI: No Meeting
- April 1: **Paula Tribulo**
WNT signaling in early embryonic development
PhD Student, Department of Animal Sciences, University of Florida
- April 8: **Charles Lockwood, MD, MHCM**
The pathogenesis of early preterm delivery – dysregulation of decidual progesterone receptor expression
Senior Vice President, USF Health and Dean, USF Health Morsani College of Medicine, University of South Florida, Tampa
