

Reproductive and Perinatal Biology Seminar Series

Fall, 2007

Wednesdays, 4 PM

D.H. Barron Conference Room (M-304)

- September 5: Charles Wood; Dept. Physiology & Functional Genomics
Title: *Prostaglandins and Fetal Hypothalamus-Pituitary-Adrenal Activity*
- September 12: Alan Ealy; Dept. Animal Sciences
Title: *Interferon-tau Polymorphisms and Their Potential Functions in Ruminants*
- September 19: Peter Hansen; Dept. Animal Sciences
Title: *Determinants of embryonic survival following heat shock*
- September 26: Matt Lucy; Dept. Animal Science; University of Missouri
Title: *Local versus systemic control of IGF system genes within the whole animal*
- October 3: Fuller Bazer; Regents Fellow, Distinguished Professor and O.D. Butler Chair in Animal Science; Associate Vice President for Research; Texas A&M University
Title: *Conceptus Signaling for Establishing and Maintaining Pregnancy: Common and Novel Features Among Species*
- October 10: Malgorzata Pozor; Dept. Large Animal Clinical Sciences
Title: *The Relevance of Testicular Perfusion in Stallions*
- October 17: Jayanth Ramadoss; Texas A&M University
Title: *Fetal Alcohol Spectrum Disorders: Mechanisms and Therapeutic Strategies*
- October 24: Lorna Moore; University of Winston-Salem
Title: *The secret of maternal-vascular adaptation to pregnancy*
- October 31: Christopher Kevin Huls; Postdoctoral Fellow, Maternal Fetal Medicine, University of Wisconsin
Title: *Shear Stress; Using a Uterine Artery Endothelial Cell Model*
- November 7: Florida Genetics 2007 symposium; UF Cancer & Genetics Research Complex; no PRB Seminar
- November 14: Robert Koos; Dept. Physiology; University of Maryland, Baltimore
Title: *Hypoxia-Inducible Factor 1: A Newly Recognized Mediator of Estrogen Action in the Uterine Endometrium.*
- November 21: No Seminar (Thanksgiving Holiday)
- December 5: Marilyn Cipolla PhD; Department of Neurology, University of Vermont
Title: *Eclampsia as a Form of Hypertensive Encephalopathy*
