

Reproductive & Perinatal Biology Seminar Series
Spring 2009
Wednesday 4-5 PM
D.H. Barron Conference Room
Medical Sciences Building M-304

- January 21: Fabio Lima Graduate Student; Department of Large Animal Clinical Sciences, Direct Comparison of Natural Service and Timed Artificial Insemination: Reproductive Efficiency and Economics
- January 28: Kathleen Shiverick PhD; Professor, Department of Pharmacology & Therapeutics, Integrative Oncology in Prostate Cancer: Nutrition and Therapy Interactions
- February 4: Emily Smith Graduate Student; Department of Molecular Genetics & Microbiology, Maternal Imprinting Mechanisms at the Prader-Willi & Angelman Syndrome Locus
- February 11: Charlie Wood Professor & Chair Department of Physiology & Functional Genomics, The Neuroendocrinology of Fetal Stress
- February 18: David Keefe, Professor & Chair Department of Obstetrics & Gynecology University of South Florida, The Telomere Theory of Reproductive Aging
- February 25: Marty Cohn PhD; Associate Professor, Department of Biology, Molecular Genetics of External Genital Development
- March 4: Jonathan McGuane PhD; Postdoctoral Associate, Department of Physiology & Functional Genomics, Mechanism of Relaxin Induced Vasodilation
- March 11: Spring Break
- March 18: Maria Rabaglino Graduate Student, Department of Large Animal Clinical Sciences, Management Strategies to Optimize Reproductive Efficiency in Dairy Heifers
- March 25: Kathleen Pennington Graduate Student; Department of Animal Sciences, Exploring Binucleate Placenta Cells in Ruminants
- April 1: Jennifer Pollock PhD; Professor, Department of Pharmacology & Toxicology, Medical College of Georgia, Early Life Stress and Cardiovascular Reactivity
- April 8: Chandra Yallampalli DVM, PhD Distinguished Professor, Department of Obstetrics & Gynecology University of Texas Medical Branch at Galveston Calcitonin Gene-Related Peptide Family in Pregnancy: Role in Vascular Adaptations and Fetal Growth
- April 15: Mike Day PhD, Professor, Department of Animal Sciences, Ohio State University. Proestrus, Estradiol and Fertility in Cattle
- April 22: **Donald Henry Barron Lecturer** Russ Anthony PhD; Hill Professor of Biotechnology, Colorado State University, Intrauterine Growth Restriction: What We Can Learn From Animal Models
